## **Purpose for FBA, e.g., Initial Evaluation, Legally Required, Develop BIP, other.**

The purpose of this FBA is to collect data in order to develop a BIP for SM. This FBA included both a series of direct and indirect data collection methods. A file review was conducted by SM's Special Educator, along with three interviews from the parent, a teacher, and SM's primary paraprofessional. In addition, two ABC data observations took place in different environments and two classroom observations checklists were completed during different times of the school day. Finally, scatter plot data was collected over the course of 1.5 school weeks. This FBA was conducted over a 7-week period.
